

Tampere, 4 April 2012

TO WHOM IT MAY CONCERN:

The Eighth International Conference on Open Source Systems (OSS 2012 - www.oss2012.org) will be held in Hammamet – Tunisia from 10 to 13 September 2012, under the umbrella of Information Federation for Information Processing (IFIP) Working Group on Open Source Software - IFIP WG 2.13. The event provides an international forum where a diverse community of professionals from academia, industry and public sector, and diverse open source initiatives can come together to share research findings and practical experiences.

In conjunction with the conference, we are planning a business matchmaking event between European and North African companies operating in the area of open source. OSS 2012 will provide participating companies free facilities (meeting room, data projector, screen, wireless internet, etc) for discussing business opportunities, partnerships and networking.

We would be delighted to have you participate in OSS 2012 so that you might meet business partners. Please note that the conference does not pay your travelling, accommodation, and registration expenses.

Professor Tommi Mikkonen
OSS 2012 chair
Tampere University of Technology
Finland
